Self: Structure accomplishes a purpose. Involves a large organization  
'like' a government. Structure is well established. Meant to  
last a long time. Strongly oriented to it like inside & open to  
sky. Supporting & related structures nearby. Technology  
feel - large scale. Long distances.

consultant, also is a focus of -ultimate/final appeal for  
difficult decisions, which have to do with the enterprise  
direction of movement, proper goals, ultimate purpose and  
unfused problems. Organization is dynamic, intends to  
be open ended. Tries to persuade others of the  
benefit of cooperation + support of it. Seem to be  
non-compulsive, & also subtle in its approach to subs.

organizing

meeting

meeting

S4 1/2 organizing a meeting ~~between~~ among people who have some sort of influence or impact

plans

strategy

S4 1/2 develop a better "angle of attack" to improve efficiency and speed accomplishment of results. Seem to spend most of their time trying to talk people into something. Function by persuasion as opposed to coercion.

Person perceived before is "enricher" - leader of organization come up w/ the ideas & ~~perform~~ <sup>form +</sup> ~~supervise~~ <sup>supervise</sup> plan as to how to proceed. Only when they run into something they absolutely can't handle, they consult w/ "the boss"

Coordinated

Does "boss" know  
of Higgs abduction? (C)

S4<sup>h</sup> Impression is that person is aware of it but  
has "wait and see" attitude; ~~not~~ mildly interested, somewhat  
amused; Curious to see how the people involved deal w/  
situation. But situation has little direct impact &  
relevance to him particularly. Person seems  
very detached from everything.
